

**Congress of the United States**  
**Washington, DC 20515**

December 17, 2010

Dear Speaker-Designate Bochner:

On November 2, the American people spoke in resounding disapproval of the Obama-Pelosi agenda, and in particular, the Washington bureaucrat takeover of health care and the doctor-patient relationship. We were all elected based in part on the promise we made to immediately repeal the health care bill and **then** replace it with real health care reform. We ask that, among your first acts as Speaker, you bring to the floor legislation that fulfills this pledge we have made.

By acting immediately, we will be sending a message that we are not in favor of inserting Washington bureaucrats into a patient's relationship with his or her doctor; that we are not in favor of increasing the cost of health insurance; that we are not in favor of weakening Medicare to create a new entitlement; and that, at a time of record unemployment, we are not in favor of legislation that will eliminate jobs.

In the 111<sup>th</sup> Congress, House Republicans, in the Pledge to America, vowed to repeal and replace ObamaCare. Now we, members of the 112<sup>th</sup> Congress, are insisting that we make good on that promise and act swiftly to restore a patient-centric health care system. Only by making good on these promises can we expect to restore the trust the American people have in their government.

We stand ready to assist you in any way possible in this effort and appreciate your attention to this issue.

Sincerely,

David P. Roy
